EDUARDO VERA
Software Developer

Hi, my name is Eduardo and I am a software developer with 1+ years of experience in the industry. I have 6 months of working experience in both frontend and backend development. My main expertise lies in **Backend** development using **Express.js** and **MySQL** and **frontend** development using **React**. Although my main technology is **JavaScript**. Additionally, I have basic knowledge in working with **Python** and **PHP**. I am a quick learner and always eager to take on new challenges and improve my skills. I am excited to bring my passion for coding and problem-solving to any project or team I work with.

Work Experience

Backend Developer at [ancientsociety.io](#)

I have 6 months of working experience as a backend developer at ancientSociety.io, where I have been working with technologies such as Express.js and MySQL. During my time there, I was responsible for developing and maintaining the server-side of the web applications and services. My main responsibilities included creating RESTful APIs, designing and implementing database schemas, and implementing security features to protect against common attacks. I also worked closely with the front-end development team to ensure seamless integration between the client and server-side of the application.

Skills

– JavaScript	– Reactjs	– HTML & CSS
– Responsive Design	– SCSS	– TypeScript
– Nodejs	– Express	– MongoDB
– Python	– PHP	- Next.Js

Education

– Informatics Engineering at Universidad Rafael Belloso Chacin. (2016 – Present Day)

Languages

– Spanish Native Speaker	– English Conversational
